

Network port code matching-1

1

If you want to add a new camera to your NVR recorder, please follow belows steps:

- 1) Move the camera closer to the NVR recorder and set up the antenna for each camera.
- 2) Power on the camera.
- 3) Connecting the NVR and camera with network cable (RJ45). The connection way of the NVR and camera as below picture shows.

Please scan the QR code to watch the video .

2

NVR Operation

Right-click to call up " Camera " .

Delete the camera that is not connected (if available) and Click on the “+” icon in the lower right corner.

Network port code matching-2

3

Add camera

Once the camera has been successfully added, click [Close].

<Go back Manually

Power the Cameras

Within 1 meter of the camera, turn on the power of the camera. After the camera has started up, please press and hold the Reset button to reset the camera (for devices with network ports, please use a network cable to connect to the NVR's network).
